

Setting the Standards

Many building codes now require graspable secondary handrails on decking and railing projects. Southern Vinyl Manufacturing is helping contractors and their customers meet the demand with a durable secondary handrail system that is attractive and versatile enough to meet any installation challenge.

Use our secondary handrails and accessories wherever you require a sturdy, reinforced design that is also virtually maintenance free. You'll find that Southern Vinyl secondary handrails are attractive and stylish, too. With Southern Vinyl, you never sacrifice appearance for functionality.
